WAR DISCUSSED BY A PROMINENT MAN AT WEBER CLUB

"We are now virtually at war with Germany and there is no longer any reason to doubt that this condition will be actual within a very short period of time," was the declaration of Herbert F. DeBower, vice president of the Alexander Hamilton Institute, at the Weber club. Continuing, he predicted that Germany would be a republic and said that the revolt was already taking root as the entire allies would never make peace with the house of Hohenzollern. "When the war ends," the visitor also predicted, "there will be many other republics on foreign shores."

Mr. DeBower is making a tour of the west in the interests of the Alexander Hamilton Institute of New York to ascertain the sentiment of business men with regard to business and industrial affairs under present conditions. He is a prominent lawyer of New York, specializing on commercial questions, and for a number of years was a special lecturer at the New York School of Commerce. His visit to Ogden was at the invitation of President George W. Goddard of the Ogden branch of the Utah Manufacturers' association and he addressed a large assembly of manufacturers and business men at a luncheon held in the Weber club at noon. The subject of the address was "America's opportunities and responsibilities."

After stating the purpose of his present tour, Mr. DeBower said, in part: "Conditions are, and have been for many months, continually and rapidly changing and it is difficult to ascertain the attitude of business men toward future business affairs for this reason. We are virtually at war with Germany and there is no reason to doubt that this condition will be actual within a very short space of time. The people of the middle west and west do not seem to sense this seriously, but it has been made forcibly apparent to the people of the east."

Must Prepare for War.
"The important thing for us to realize is that we must be prepared for war as a rich nation. To illustrate this I might say that the United States at the present time is very much like a rich man starting to walk down a dark alley, with thugs on each side of him, unprotected. The result is obvious. It is highly necessary, therefore, that the sentiment of the people in all parts of the country on this momentous question of preparedness be pressed upon congress and the president, for these authorities are anxious to perform the will of the people, if it is made known to them."

"First, we must learn the lesson of economy and thrift as it is practiced in the old world; second, the lesson of efficiency as it has been demonstrated by the nations now at war, and third, we must develop more intensive and diversified industries in order to become entirely self-sufficient. Universal military training must be demanded by public sentiment and this does not mean the development of a military nation as in this country, the civil arm will always be superior to the military arm. We should also be the first nation to advocate and promote a world league for the enforcement of peace."

"As we are now about to go into war, it can be readily understood, from the experience of our neighbor, Canada, Japan and other nations, that the conflict will augment our present prosperity. The capacity of factories will be increased and production speeded up to meet the nation's needs. Many men will be called to the 'colors,' leaving a shortage of labor and consequent high wages. It is also virtually a certainty that the government will negotiate within the next sixty days a loan of a billion dollars and in many other ways, the war will mean unprecedented prosperity for all industries."

CITY SELLS TO THE UNION PACIFIC

Through Mayor Abbot R. Heywood and Attorney Charles R. Hollingsworth, the Union Pacific completed the purchase late Saturday of the people's 960 acres of land in Taylor canyon at \$6 an acre, the total price being \$5,760.

On account of Mayor Heywood's refusal to appeal the city's suit for the waters of Taylor canyon, now amounting, it is said, to about a million gallons a day, the city lost the right to appeal on February 6th, the time limit.

Having acquired the land itself by purchase at a nominal price, the Union Pacific will now forever control the water sheds.

Lawyers interested in this transaction declare it completes a gift to the Union Pacific worth many thousands of dollars.

BAD LANGUAGE MOST EXPENSIVE

Using obscene language in the presence of women on the street last night, cost R. H. Pearson, a local chauffeur, 21 years of age, \$10. He forfeited the amount in police court this morning, having been arrested for the offense by Patrolmen Hearn and Paine. F. M. Fabero forfeited \$5. He was charged with the theft of a pint bottle of whisky from the Pabst bar on Wall avenue, Saturday night, Jas. Hawkinson, an alleged drunk, forfeited \$5.

L. G. Hager was found guilty of vagrancy and sentenced to serve ten days in jail, and five day sentences were meted out to Joe Ludwig, George Shepherd and Marlin Cummertford, plain drunks.

Lose Your Fat, Keep Your Health

Superfluous flesh is not healthy, neither is it healthy to diet or exercise too much for its removal. The simplest method known for reducing the overweight body two, three or four pounds a week is the Marmola Method, tried and endorsed by thousands. Marmola Prescription Tablets, containing exact doses of the famous prescription, are sold by druggists at 75 cents for a large case, or if you prefer you can obtain them by sending direct to the Marmola Company, 864 Woodward Ave., Detroit, Mich. They are harmless and leave no wrinkles or flabbiness. They are popular because effective and convenient.—Advertisement.

COUNTY TO AID CITY TO PAVE

County Commissioners Martin P. Brown and Moroni Skenen this afternoon assured Mayor Abbot R. Heywood and Commissioners Christ F. Haglund and Miles L. Jones, when they called to confer, that the county had formally agreed to a levy providing \$25,000 for the state and county share of the expense in the paving of Washington avenue from Twenty-eighth street to the south city limits, provided the street were formally designated as part of the state highway.

VILLA IS SUPPLIED FROM WEST COAST
EL PASO, March 18.—Francisco Villa obtained a large shipment of arms, ammunition and military stores from the west coast of Mexico recently, with which he defeated the Carranza forces in command of General Francisco Murguía near Rosario, Durango, March 11, according to a report made by government agents to Washington. An investigation is now being made to ascertain how Villa obtained these supplies.

Partial confirmation was received here tonight of the report that a prominent German recently crossed the border near here, went to the vicinity of Parral, where he held a conference with Villa, and offered to supply him with arms and ammunition.

DEFICIT FACES PANAMA CANAL.
WASHINGTON, March 17.—A deficit of over 55 per cent confronted the Panama canal at the beginning of the calendar year, according to figures received here. That is the expenses of operation and maintenance of the waterway from the opening to January 1 last exceeded the tolls by \$5,255,565. The total expenses for the period were \$7,717,072, and the receipts from tolls, \$2,461,517.

NURSE HAD POOR HEALTH

Suffered Much Pain, Yet Had to Work. Finally Cured by Lydia E. Pinkham's Vegetable Compound.

Toledo, Ohio.—"I am a widow and go out nursing, and I suffered from a female trouble that caused a great deal of soreness across my back, and through my abdomen. Sometimes it would be very painful after a hard day's work. I read about Lydia E. Pinkham's Vegetable Compound and tried it and it has helped me wonderfully, so the soreness is all gone now. I believe Lydia E. Pinkham's Vegetable Compound is just the remedy for female troubles."—Mrs. ELIZABETH JOHN, R. F. D. No. 4, Toledo, Ohio.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and today is regarded as the most successful remedy for female ills. There are thousands of voluntary testimonials on file in the Pinkham laboratory at Lynn, Mass., to prove this fact.

**ELECTRIC ROAD WINS
DAMAGE SUIT IN
COURT**

District Judge Alfred W. Agee today decided that the Ogden, Logan & Idaho railroad and its employees were not responsible for the damages sustained by W. H. Goan when his automobile collided with a street car and interurban car several months ago. He held that the plaintiff, suing for heavy damages, had not exercised reasonable care, while the street car employees had done all they could reasonably be expected to do to avoid the accident.

The judge expressed sympathy for the plaintiff in his injuries, but said all the evidence, which he reviewed in detail, forced him to the decision that the plaintiff himself was responsible for the accident.

Colonel C. A. Boyd was counsel for the defendants and Judges John E. Bagley and John D. Murphy for the plaintiff.

In reviewing all the evidence and summing up the case, involving all the complications of the physical facts and two fine questions in physics, Judge Agee astonished the lawyers and the two hundred spectators in the courtroom by performing this memory feat entirely without notes. "He knew every detail as perfectly as A-B-C's," one of the attorneys afterward remarked, "and that was the finest exhibition of memory efficiency I ever witnessed in all my experience."

The 101 High school students, to whom memorizing is a daily trial, listened to the judge's long recitation of the details of this complicated case in open-mouthed amazement. "I thought I was good on memorizing," remarked one of the seniors, "but it would take me a solid month to memorize that review."

Judge Agee heard the case Saturday afternoon.

TEUTON ARMY IN RETREAT

Sixty Villages Have Been Taken by Advancing Allies.

LONDON, March 18, 10:02 p. m.—British troops, continuing their rapid advance on the heels of the retreating Germans, have occupied the important towns of Nesle, Chaulnes and Peronne. Along a front of about forty-five miles they have entered the German positions to a depth of ten miles in places. In addition, the British have taken more than sixty villages.

The announcement of these gains was contained in the official report tonight from British headquarters.

PARIS, March 18, 10 p. m.—The advance of the French troops continued today between the Aisne and the Somme, along a front of sixty kilometers (about thirty-seven miles) according to the official communication tonight. French cavalry entered Nesle. In the direction of Ham, on the Somme river, the French forward movement reached a depth of about twelve and a half miles.

North of Soissons the French have occupied Crouy, and in the same district have taken the villages of Carlepont, Morsam and Noyonville. The town of Noyon was occupied by French cavalry. The statement reads:

"From the Aisne to the Aisne, on a front of more than sixty kilometers, the advance of our troops continued during the day. North of the Aisne our cavalry this morning entered Nesle, and we immediately sent out patrols toward the Somme. There were several engagements with enemy rear guard detachments, who resisted feebly. The inhabitants of Nesle acclaimed our troops."

"Northeast of Lassigny we have advanced more than twenty kilometers toward Ham."

"Further south our light cavalry detachments, moving along the valley of the Oise, occupied Noyon about 10 o'clock this morning."

"Between the Oise and Soissons (Aisne sector) the entire German first line, as well as its villages of Carlepont, Morsam and Noyonville, fell into our hands. We have gained a foothold on the northern plateau of Soissons and occupied Crouy."

"In the left bank of the Meuse the enemy violently bombarded our positions from Avocourt wood to Le Mott Homme. On the right bank a German attack directed against our trenches in the region of Chambrette were stopped short by our barrage fire."

"Two German airplanes were brought down today, one in the direction of Virginy, the other west of Brimont. Rheims is retreating."

BERLIN, March 18, by wireless to Sayville.—Systematic retirement of the German troops between Arras and the Oise, on the French front, is announced by the war office today. Peronne, Noyon, Bapaume, Roye and several other towns have been abandoned by the Germans.

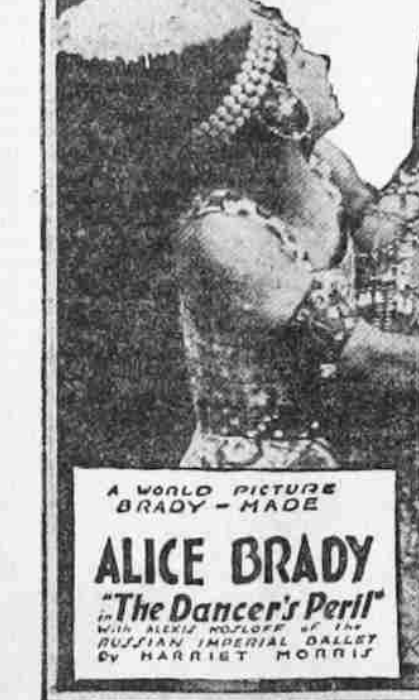

Peronne was one of the strongholds of the Germans on the Franco-Belgian front. It is a town of about 4,000, on the Somme, and is of strategic importance on account of its railway and highroad connections. It was invested on three sides, and the retirement of the Germans to the north and south made the abandonment of this town inevitable.

From Arras to the Oise, where Berlin reports the withdrawal is being made, is about fifty miles. The capture of Bapaume and Roye was announced yesterday. Noyon is a town of about 6,000, sixty-seven miles northeast of Paris.

**RAIDERS SHELL
THE KENT COAST**

LONDON, March 18, 11:27 p. m.—German torpedo boats shelled towns along the Kentish coast early Sunday morning, but did little damage, according to an official statement issued tonight.

Coughs Worse at Night

The simplest and quickest way to get rid of a wearing, racking night cough, tickling throat, hoarse, wheezy breathing is to take

Foley's Honey and Tar.

In it, you get the curative influence of the pine tar and other healing ingredients, together with the mollifying and laxative action of honey.

Editor C. T. Miller, Canastota, Ind. (Enquirer) writes: "I was troubled with bronchial affection and coughed constantly day and night. I took Foley's Honey and Tar and got relief. It is great for bronchial colds and coughs. La grippe and bronchial coughs, croup, hoarseness, tickling throat, are all quickly relieved."

ROBBED OF A MONEY ORDER AT LOCAL ROOMING HOUSE

J. C. Roth was robbed last night at the Denver rooming house of a money order for \$110. Suspecting a man who had been in his company during the evening, he reported the robbery to the police and also gave the officers a description of the suspected man.

The description was telephoned to Salt Lake and late this afternoon the thief was arrested in that city with the money order in his possession.

Sure! High Heels Cause Corns But Who Cares Now

Because style decrees that women crowd and buckle up their tender toes in high heel footwear they suffer from corns, then they cut and trim at these painful pests which merely makes the corn grow hard. This suicidal habit may cause lockjaw and women are warned to stop it.

A few drops of a drug called freeze-on applied directly upon a sore corn gives quick relief and soon the entire corn, root and all, lifts out without pain. Ask the drug store man for a quarter of an ounce of freeze-on, which costs very little, but is sufficient to remove every hard or soft corn or callus from one's feet.

This drug is an ether compound and dries in a moment and simply shrivels up the corn without inflaming or even irritating the surrounding tissue or skin. Slip this out and pin on your wife's dresser.—Advertisement.

RECORD CROWDS SEE "THE LIBERTINE"

With the exception of Saturday's attendance at the big theater, all attendance records were broken last evening to witness Alma Hanlon and John Mason in "The Libertine." The verdict was that "The Libertine" is the saddest story ever told in film, with a climax that was delightful, which drew applause from the audience—a true story stripped of every raiment to bare the horrors of the world—prettiest, the masterpieces of art are of the world's most famous collections, the scenes so realistic it carries one through with a relaxation until the happy climax, which comes so suddenly, so unexpected, that the audience is thrilled with joy. The picture can remain only two days. Children twelve years or under will not be admitted, unless accompanied by parents, as it is not a child's picture. Come early and secure a desirable seat.—Advertisement.

**HEATHEN NATIVES
AND RELIGION**

"Has the influence of the white man served to civilize the heathen natives of the South Sea Islands?" was a question answered in the negative by Elder M. Charles Woods in an interesting sermon at the Tabernacle yesterday afternoon. He served a three-years' mission among the Maori tribes of New Zealand a number of years ago and the theme of his discussion yesterday was "The Myths of the Maori."

In his talk Elder Woods proved thoroughly conversant with the ancient lore of the South Sea Islanders, reciting several stories of Maori mythology told him by the natives while he was working among them. According to these stories, the natives had high ideals before their territory was invaded by the white men, but since that time had materially retrograded, physically, mentally and morally. "Their only salvation now," he declared, "is for the gospel of Christ to be preached to them and to be received and lived."

The service was in charge of Elder T. Samuel Browning and of equal interest to Elder Woods' talk was the following musical program:

Organ prelude, Sam. F. Whitaker.

Duet and chorus, "He Shall Feed His Flock," Myrtle B. Higley, Mildred Ware and Tabernacle choir.

Chorus, "At Rest," choir.

Contralto solo, "O Rest in the Lord," Mildred Ware.

Organ postlude, Sam. F. Whitaker.

RELIGION CLASSES HOLD CONFERENCE

Religion class conferences were held yesterday in the First, Second, Ninth and Eleventh wards of the Weber Stake and the older people of the wards were given a conception of the excellent training being given the children in these classes. The conference programs each embodied in a "Model Class Lesson" and the theme of the lesson was courage and short talks on the general purpose and work of the organization were made by members of the stake and general board.

In the First ward Helen Hesson conducted the class lesson and the speakers were Katherine Wright and Emily Carr of the stake board. The speakers in the Second ward were Andrew Jensen of the general board and President Charles H. Hussey of the Weber stake board. Miss Etta Browning directed the lesson demonstration.

Miss Belle Williams conducted the class at the Ninth ward and the speakers were Laura Hotelling and Lillian Belnap of the stake board. In the Eleventh ward the class was conducted by Elizabeth Eversole and the speakers were Margaret P. Bingham and Hula Fernellus.

TRUCK DRIVERS WITH THE ARMY

COLUMBUS, N. M., March 19.—Less picturesque but more efficient than the old time civilian "mule skinner" of the army, the civilian motor truck driver has found a place in the United States army.

When General Pershing's troops were in Mexico the motor truck drivers would roll into Columbus covered with alkali desert dust, their rifles strapped beside the driver's seat in a leather boot. They have been called the unsung heroes of the Punitive Expedition. Driving over hundreds of miles of mountain roads, risking Mexican snipers and making night drives without headlights, the drivers of the "gas hogs" won their place.

Upon the return of the Punitive Expedition many of these truck drivers were dismissed, given transportation and sent back home. They came to the border here from the machine shops of Cleveland, from the automobile factories of Detroit and the garages of a hundred cities.

Less than a year at the steering wheel of these new desert crafts transformed them from fair skinned boys to grizzled veterans and they returned home wearing the sheepskin coat, the leather puttees and the knit caps which are a prescription made of the bodies of the civilian motor truck drivers.

Many remained in the civilian truck corps to drive the big trucks, but a majority quit, having joined here in the hope of excitement at the front in Mexico.
